

C.G.L. AMENDMENT PROPOSALS FOR 2022-23 SEASON

1. The teams with the 2 best records get a bye in the Playoffs regardless of Division winners getting the top four seeds. The bottom line is that the 2 teams with the best records should get “something” for that.
2. As long as everyone has been forced to play the computer, I propose that we go to a full AIM league. (AIM is Advanced Injury Management. You can research what A.I.M. League/options are in League Manager under the A.I.M. tab)
3. A Relief Pitcher can appear in NO MORE than TWO consecutive Games without a Rest Day
4. Allow any player on the BBW season disk from APBA to be available for drafting in CGL. There seems to me no further reason to limit the availability of players who are on the disk but not on some more restricted list. (Commissioner’s note: If this Amendment passes there will no longer be a Rookie Draft List with 1,300+ players on the disk each year. Each Manager will be responsible for making their own list from the disk)
5. Keep the APBA Carded Players List (Lineup sheet) as a set group for rookie drafting. However, ALL players on current Rosters who ARE on the Disk may play all eligible games by current CGL Rules, i.e., Batters Games Played, Pitchers Starts or Relief Appearances unless Injury rated J-4 - then limited to At Bats or Innings Pitched. This would prevent players like Dubon, Alford and Brosseau who had well over a 100 AB's not being available. This would in no way affect Rookies.
6. A team must have a winning record to be eligible for the Playoffs
7. Limit ALL Relief Pitchers to actual Innings Pitched
8. Limit Split Grade pitchers to Actual Innings Pitched
9. Teams may Draft beyond TEN ROUNDS but players taken AFTER the 10th Round MUST make a Team’s 38 Man Roster
